

WE ARE NOW RECRUITING FOR A COMMERCIAL FINANCE MANAGER!

Competitive Annual Salary | Reward Structure | Friendly Workplace Environment

An exciting opportunity has arisen for a full-time Commercial Finance Manager to join the Finance Team in Warrington.

WHO IS THE DELIVERY GROUP?

Originally a letter delivery business, The Delivery Group has an outstanding track record for growth, taking turnover from start up to over £200 million in the last ten years since it was established. We have also been ranked several times in the 'The North West's Fastest Growing Company' report and The Insider's 'Growth 100 Report' as well as successful inclusion in the Sunday Times Fast Track 100. We have successfully diversified into the rapidly growing economy parcels market, capitalising on the boom in online shopping. The Group is now represented by multiple sites around mainland UK, and continues strong growth year on year.

Summary:

Fantastic opportunity for an ambitious, commercially focused qualified accountant to make a real difference in a fast-paced owner managed business with accelerated growth plans.

Supporting both the Group Financial Controller and divisional Finance Director, the successful candidate will be analytical, proactive and able to think outside the box, to support the business in delivering its strategic objectives. This is a true business partner role.

You will have the ability to work with non-finance managers, build relationships and influence decisions. Moreover, you will be passionate about the positive impact that good financial information and insight can make on a company's achievement.

You will possess excellent communication and influencing skills with the ability to work in a rapidly changing environment as we grow, scale and optimize for success.

The strategic plans for the Group mean the right candidate will have future opportunities for career development.

Main Duties:

- Provide robust financial support to promote efficiency and to generally manage and improve profitability across the Group
- Become a key player in helping the team transform current processes, procedures and management reporting
- Oversee preparation and interpretation of commercial and operational KPI's
- Pivotal contact between the Commercial team and the Finance team to ensure accuracy of revenue
- Build relationships with all departments, and work with department heads to identify projects through which commercial finance can support and add value
- Preparing and presenting alternative commercial options and scenarios
- Support the forecasting, budgeting and strategic decision-making processes
- Support month end process (3 days per month)

The above list of duties and responsibilities may be changed, altered or added too in the future and is not exhaustive.

Essential Skills:

- ACA/ACCA/CIMA qualified Accountant
- Be commercially astute
- Detail orientated with strong analytical skills
- Exceptional communication skills
- Self-starting and able to identify value- add opportunities
- Ability to work in a fast-paced environment and meet tight deadlines
- Advanced Excel skills
- Advanced numeracy, including ability to model scenarios and sensitivities

Industry experience is not a necessity for this role and we welcome applicants from all sectors and/or a Big 4 background.
